Knowledge Management

mupudia Knowledge Management offers companies a forward-looking solution to address demographic changes. Through advanced machine learning and NLP, it enables efficient searching and management of information or data. With enhanced

accessibility and a focus on intergenerational knowledge transfer, the application helps businesses optimize their information management and meet the challenges of increasing employee shortages.

You chat with your data: You ask, mupudia answers based on your corporate data, including source display.

„Hello, what would you like to know?“

YOUR ADVANTAGES AT A GLANCE

- >> Fast access times (< 1 second)
- >> Productivity increase
- >> Cognitive learning capability
- >> Constant scalability & flexibility
- >> Intuitive search functions
- >> Contextual understanding
- >> Personalized search experiences
- >> Security and data privacy

The solution for intergenerational knowledge management and increased productivity:

- **Improved accessibility** to information for employees through intuitive search functions and natural language input.
- **Promotes knowledge exchange** across generations, adapts to different work styles, and supports lifelong learning.
- **Increases productivity and efficiency**, especially in an aging workforce.
- **Flexible working** from anywhere.
