

# PSI Technics Sensor Cleaning Kit

## Industrial Kit for the Regular Cleaning of Optical Sensors

PSI Technics' Sensor Cleaning Kit is the ideal tool for the regular care of optical sensors and reflectors.

The dedicated components are delivered in a convenient storage and carrying case that enables the gentle and thorough cleaning of:

- >> **Optical distance meters from a wide range of manufacturers**
- >> **Scanners**
- >> **Barcode readers**
- >> **Data light barriers**
- >> **Reflectors**
- >> **Sensor Protection Cases (e. g., TPCC)**

In addition to the required cleaning components this kit includes common tools for installing, removing and aligning most optical distance meters as well as PSI Technics' Sensor Protection Cases (e. g., TPCC). The compact PSI Technics Sensor Cleaning Kit provides an easy way of keeping all components readily at hand for sensor maintenance.

**Benefits:**

- >> Many cleaning agents that are used for the cleaning of optical sensors can lead to unsatisfactory cleaning results and may require frequent cleaning or could even damage sensitive optical surfaces or the surface coating.
- >> The PSI Technics Sensor Cleaning Kit is a universal, professional-grade accessory that gently removes all types of dirt (dust, contaminants, water stains, grease, oil, soot, etc.).
- >> The sensor cleaning spray removes even persistent dirt, helps prevent re-staining and leaves glass and other smooth, wipeable surfaces clean and streak-free.

**Contents:**  
*Sensor cleaning spray, sensor cleaning wipes, compressed air cleaner, waste bags, 13/17 double open-ended wrench, 3x200 mm Allen wrench, 6x186x38 mm hexagonal offset screwdriver.*
