New Solution: The positioning system ARATEC® provides increased efficiency!

The ARATEC® Positioning Solution System Advantages

- Communication:
  Analog and digital outputs identical to ICS5000
- DIN RAIL mounting system integrated into electrical cabinet
- No programming skills required
- Faster than a PLC
- Flexible use of applications, such as bridge cranes and stacker cranes as well as industry-standard technologies (i.e. Data Highway Systems)

Trimble ICS5000 has been discontinued!
